At 11 o'clock last night the man-of-war Bolivar, with Gen. Gomes aboard, arrived here. As she passed before Cudad Bolivar she was fired upon, but without effect. The Bolivar anchored two miles above the city, and placed herself in contact with the besieging government troops. The remainder of the Venezuelan fleet, composed of the men-of-war Zamors, Restaurador, Miranda and Vientre de Mayo, are due tomorrow. When they have arrived 4200 men will be ready to attack Cludad Bolivar. The government authorities intend to give Gen. Another Remarkable Rally by the Holy Father of the Vatican.

After a Night of Restlessness and Delirium From Which He Roused Himself to Prepare for the End The Pope Arose Yesterday and Welcomed Cardinals Who Called Upon Him.

DOME, July 15, 9 a. m.—The following medical bulletin has just been issued:

POPE FEELS BETTER. [BY THE ASSOCIATED PRESS-P.M.]

ROME, July 15, 9:50 a. m.-When Dr. Mazzoni entered the Pope's sick room this morning he ? found His Holiness in almost the same condition as last night. Pope Leo said: "I feel better than \$ I did yesterday morning."

On leaving the Vatican, Dr. Mazzoni, in reply to the query, "Is the end imminent?" answered, & "It cannot be called so."

"Then is it near?" was asked. To this Dr. Mazzoni replied: "In order not to make a mistake, \$ et us say it is not far distant."

> STILL SOME DELIRIUM. (BY THE ASSOCIATED PRESS-P.M.)

LONDON, July 15 .- A dispatch from Rome, timed 6:50 o'clock this morning says while the Pope passed a fairly quiet night, he had some moments of delirium. The rumer of the Pontiff's death was twice circulated during the night, but I was promptly denied.

DEPRESSION OF FORCES. (BY THE ASSOCIATED PRESS-P.M.)

ROME, July 15, 5:15 s. m.-The Pepe has passed a very tranquil night, but the depression of his forces continues.

ROME, July 15, 2 a.m.—[By Atlantic Cable.] Another remarkable raily in Pope Leo's condition occurred syesterday afternoon, after a morning in the course of which His Holiness suffered spells of delirium, and at times his strength sank in the leaves of the morning, when he received the benediction of the Tourist Cable 11 and 12 to 15 and in the course of which His Holiness suffered spells of delirium, and at times his strength sank to the lowest ebb, and now he lies in no worse condition than he was Monday evening, except for the steady diminution of his strength. Mgr. Bluiet, master of the chamber, visited the sick room just after midnight, and on emerging stated that the Pontiff's condition was unchanged. A little later the Pope fell into a sleep which, it is announced, is fairly tranquil, although the patient's respiration is troublesome.

Yesterday's rally was characteristically opposed to every medical theory.

Testerday's rally was characteristically opposed to every medical theory, and consisted in the Pope getting out of bed on which two hours previously he himself had made all preparations for death. Unsatisfied with this exhibition of vitality, he transacted private business and received four cardinals, with whom he talked in an animated way. In fact, Pope Leo's record for yesterday, little of which appeared in last night's official bulletins, would be incredible if it were not confirmed by the doctors and cardinals present in the sick chamber. None seem more perplexed than the doctors themselves. Dr. Lapponi said frankly: "I cannot imagine how the Pope manages to keep alive."

ROME, July 14, 11:30 a.m.—[By Atlantic Cable.] Before lapsing into delirium, the Pope fully realized the extreme gravity of his condition. He asked to see Cardinal Rampolla, who entered the sick room. His Holiness gave the cardinal a brief whispered message. Pope Leo also asked to receive the benediction, which was performed by Cardinal Vives y Tuto.

ROSE FROM HIS BED.

Most persons are inclined to the idea that Pope Leo may go through perhaps two or three repetitions of yesterday's ups-and-downs, until, as Dr. Rossoni puts it. "his pulse stops forever." Three causes may accelerate the end, vis.: Inability to take nourishment, which was exhibited today: sudden heart failure, or the progression of the FOUR CARDINALS ADMITTED. ROME, July 14.—10:10 a.m.—[By Atlantic Cable.] The Pope, though feeling that the end was really approaching, has taken much trouble in giving his tast instructions. This morning, speaking with evident effort to his private secretaries. Monsignors angell and Marzolini, His Holiness repeated the instructions previously given that all the presents received by him on the occasion of his jubilee in 1886, which are of the greatest value, shal be the property of the Holy See, and telling in which drawer would be found the most costly, which are to be personally delivered to his successor. With an evident feeling of sadness, the Pontiff spoke of the sacred objects he had gathered. "As Pope, I do not possess anything, as I live by the alms of the faithful. It would be a great detriment to the church if I should give to my family even the smallest part of what the people send me by denying themselves. As to my personal property," the Pontiff concluded, "I divided that among you long ago."

Dr. Massoni was asked for an explanation and said: "It is a phenomenon which, as all such, cannot be explained." The dectors consider the catastrophe near. BRAIN AFFECTED.

(BY THE ASSOCIATED PRESS—AM.)

ROME, July 14, 2:15 p.m.—The Pope's condition today developed features which the doctors regarded as the most alarming since his iliness began. Their judgment was based upon the patient's having brief, but frequently recurring spells of delirium. Yesterday's hallucinations were not considered as of the same character; that delirium being clearly the effect of nerve prostration. Today's delirium convinced the doctors that the disease had advanced beyond the nerves, and had affected the brain. Toward noon no marked change was reported, but Dr. Lapponi made a brief visit to his sick daughter. This led to the belief that the doctors did not expect immediate dissolution.

NEW YORK, July 15.—(Exclusive Dispatch.) Employers in the building industry have decided to take advantage of internal dissensions among labor unions, and will today issue an ultimatum to the latter, announcing on what date they must return to work.

The Iron League used this method with what they consider success during the strike last spring, and the builders think they can do the same thing. It is another attempt to get the unions to accept the plan of arbitration over which there is so much trouble at the present time.

Some unions have already signed the plan, and were expelled from the United Board of Building Trades for doing so. They will return to work before the date to be decided upon tomorrow, but many of the other unions, led by Sam Parks, delegate to the Housesmiths, Bridgemen and Structural Iron Workers' Union, are expected to make a long fight against such a move on the part

ONESDAY, JULY 15, 1903, VANDERBILT FEUD ENDS.

> Cornelius Forgiven by His Mother, and Will Bring His Wife Home! for Welcome at the Breakers.

NEWPORT, July 14.—(Exclusive Dispatch.] Cornelius Vanderbilt has been forgiven, and peace has settled upon the Vanderbilt family for the first time in seven years, ever since he married Miss Grace Wilson in defiance of his father's commands. When Cornelius Vanderblit and his wife return from Europe, they will come to Newport as the guests of his mother at the Breakers, and a series of magnificent enter-tainments will mark the reconciliation.

Alfred Gwynn Vanderbilt, Cornelius's younger brother, is credited with bring-ing about the result, and it is said he

A BATTLE TO THE DEATH.

REDWINGED BLACKBIRDS IN CITY-WAR

by a score of millionaires on the other.

The redwings were constructing their nest in the rushes under the shadow of a Marconi wireless telegraph station. City streets hemmed in the site, hundreds of people were passing constantly, and yet Capt. Blackbird, with his orange and gold epaulets shining on his shoulders and making him a fair mark for the stones of every idle boy, hovered over the heads of intruders and called his "conk-er-ee" as blithely as though he were above the isolated swamp of the countryside.

TRAGEDIES OF BIRD LIFE.

There is an interesting family today in the nest hidden in the rushes of that wet town lot. Some boy did find the father blackbird a shining mark, and the devoted blackbird is now helping his mate fill the mouths of the hungry family, while one of his-legs, broken by a stone from a slung-shot, hangs dangling.

Bird life is full of tragedy. In the old nurserly rhyme children are taught to believe that the "little birds in their nests agree," and agree out of the nest as well. The familiar ditty was written for its moral effect, and it is true enough to stand solely for the good it may do, but it must be recorded, reluctantly enough, by the way, that birds sometimes show what Englishmen call a "nasty" temper.

Leve and war always come together with the birds, and as the old saying makes all things fair in these two contingencies, possibly we cannot blame the songsters for "rowing" through the whole courtship season. The male birds do the fighting, while the charmer over whom they have waxed pugnacious looks on with apparent unconcern as to the outcome, and weds the victor instanter.

IN MORTAL COMBAT.

Sergt. Seldensticker is now dead, and Rice is under arrest charged with his murder. Rice exhibits great concern, and is completely broken down. He wept bitterly on being told that Seldensticker was dead. The wounded man is Daly of Troop I, instead of Davis of Troop M.

Two cowpunchers were slightly wounded by chance pistoj shots.

VIRTUES OF THE CATBIRD.

The catbird is held in contempt by some of the thoughtless ones. Possibly its name is against the bird. It is our garden friend, however, a patient and tireless warrior in the army battling against the insect pests. The catbird is soberly dressed in the main, and as if in half shame of its one bright touch of plumage it hides the offending red feathers beneath its tail.

What a singer is our catbird! His rolling succession of notes would be well nigh matchless did he not mar the performance with an occasional querulous catlike tone. "In the midst of its music it sometimes cries meouw," as a wersifier puts it. If our friend would consent to cut out a bar or two of his music he would be the rival as a soloist of his cousin, the mocking bird. Cultivate the catbird. I know one man who has eight pairs of the birds nesting this summer on his few acres of ground. He wishes the number were trebled. The bird nests usually in the very heart of a thick growing bush, though it occasionally selects a tree. The photographer who would get a satisfactory picture of a catbird's home must need semploy a flashlight. It perhaps goes without saying that most of the pictures taken have been secured after the bushes have been cut away, an operation to which the catbird vociferously objects.

Orchestrelle

Is an instrument for which there is no substitute. No matter how many other musical instruments there may be in the home, not one of them can take the place of the Orchestrelle. This is because it is utterly beyond the limits of any home instrument to approximate the magnificent harmonial effects of a full and well conducted orchestra. This distinctive feature places the Orchestrelle in a class by itself. No previous knowledge of music, and but little practice is necessary to attain perfection in playing this instrument. Rough and Tumble Street Fight Between Members of the No. 3 Engine Company.

Two members of the No. 3 Engine Company of the fire department engaged in a street fight on Hill street between First and Second at 2:30 o'clock this morning, the noise they made arousing the neighborhood. The police were sent for and both combatants, both of whom were under the influence of liquor, were taken to the Police Station, but were not locked up. The men are Driver Fernandez and Hoseman Patterson, and the latter, although the larger man of the two, was thrashed. The screams of Patterson's wife attracted the attention of passers-by and they nottined the police, but by the time the officers reached the scene the fight was over. According to the statement of Mrs. Patterson, she and her husband were conversing in front of her house when Fernandez, who was near by, became engaged in a dispute with Fatterson, and the fight followed.

Mrs. Fatterson tried to assist her husband, and screamed for assistance. The whole neighborhood was aroused, and when the police had taken both men in charge Fatterson's vile language could be heard for blocks. It is probable no complaints will be issued against the men, but it is reasonably certain that the Board of Fire Commissioners will take cognigance of their actions.

YOSEMITE VALLEY, July 14.—Mrs.
A. E. Johns of New York City, who has been staying in the valley for a few day, was found this morning in a steep crevasse back of Sentinel Dome. Yesterday, Mrs. Johns started from Glacler Point Hotel to walk to the fissures, located some two miles from the hotel. Mrs. Lewia, the manager of the hotel, cautioned her against going too far without a guide, and admonished her not to remain after day-

After trying in vain to work his ray down the wayside to her, Mr. Potter was forced to return to the totel for more help. Provided with senty of ropes and carrying a tretcher, a party of eight made its way back to the crevasse, where the work was commenced of trying to extract Mrs. Johns from her dangerous ituation on the ledge. Dr. Maurice & Brown, of Alameda, accompanied he relief party and will sender any saistance possible when Mrs. Johns has been rescued.

REMARKABLE ESCAPE.

[BY THE ASSOCIATED PRESS—P.M.]

TOSEMITE, July 14.—The relief party found Mrs. Johns's position to be critical in the extreme. A closer examination showed that her escape from a frightful death had been nothing less than miraculous. She had fallen a distance of 300 feet from the rim of the drevasse walls and had partially stayed her fall by catching at juniper bushes and scrub cedar trees through whose branches she had plunged. When the rope had been lowered, Mr. Potter descended to examine the ground and determine the best course to pursue in geting Brs. Johns from her perilous position. There, lodged upon a two-foot ledge with the clothing torn to fragments and her flesh scratched and bruised, lay the woman, weak from exhaustion and lack of food and benumbed by the frosty chill of the night. With difficulty the rope was securely tied around her waist and an effort made to hoist her to the rim above. This at-

lay the woman, weak from exhaustion and lack of food and benumbed by the frosty chill of the night. With difficulty the rope was securely tied around her waist and an effort made to hoist her to the rim above. This attempt proved futile because of Mrs. Johns's weight. By leaning over the abrupt precipice, Mr. Potter could discern another and larger ledge a hundred feet below, from which was a sheer drop of hundreds of feet. He determined to try this plan of resoue.

Giving the order to those above to lower the rope, Mr. Potter swung the hanimate form of Mrs. Johns out over the tiny strip of rock upon which she had braced herself for fifteen hours, and into the chasm beneath. By swinging the rope to and fro Potter was able to lodge the body of Mrs. Johns upon the larger ledge, and then he descended himself. Calling to one of the mountain guides above, Potter had him descend the rope to the ledge upon which all three were now resting. Then the two picked up Mrs. Johns, and together they made their difficult way around dangerous ledges, and over yawning precipices beneath, until, finally worn out and exhausted condition is much improved, though suffering from nervous shock. As no bones were fractured, she will be fully restored after a period of rest.

Mr. and Mrs. Johns's exhausted companied her here, returned home a few days ago.

SAN FRANCISCO, July 14.—Richard Mahoney, aged 33, a glove maker residing at No. 510 Vallejo street, committed suicide this evening by cutting his throat. Mahoney had an altercation on the corner of Mason and Green streets with a man named Richard Shelly, a few minutes before, whom he stabbed repeatedly with a dirk. After wounding Shelly severely, Mahoney ran off, pursued by a bystander named Fred Cramer, and when about 100 yards from the corner of Mason street, drew a rasor from his pocket and cut his throat, dying instantly.

Shelley was taken to the Emergency Hospital, where an examination showed that he had been cut over the forehead and stabbed in the left eye and through both cheeks. The physicians think he will recover. He also is a glove maker.

The cause of the trouble is believed to be in connection with the recent strike in the trade. The detectives are now investigating the cause. [BY THE ASSOCIATED PRESS-P.M.]

C HICAGO, July 14.—[Exclusive Dispatch.] Chicago's summer-resort weather, which came in the wake of the torrid wave, continued today, the conditions being as near ideal as residents of the Windy City are ever residents of the Windy City are ever permitted to enjoy. The mercury got no higher than 68 deg. at 11 a.m. and the lowest, 62 deg., was recorded just before surise. Pleasant weather, with clear skies and cooling breezes, are to clear skies and cooling breezes, are to continue for several days, according to the forecaster. No heat wave is in sight. The winds will be off the lake most of the time. Temperatures at 7 a.m.: New York, Boston, Washington, 63; Philadelphia, Sh. Louis, 70; Chicago, 64; Minneapolis and Cincinnati, 60.

WATERED MILK THROWN OUT. Sixteen gallons of watered milk were taken from a St. Paul train today and poured into a sewer by order of City Chemist Bisbee. The Health Board has allowed dealers until August 1 to paint their cans. One fium has received an order for 1400 red cans.

COOK-COUNTY VALUATION. According to the report of the Assessors, Cook country has a personal-property valuation this year of \$471,-474,015, of which Chicago, as usual, furnishes the lion's share, \$452,003,065. In the business district, the valuations in-creared nearly \$25,000,000, and Hyde Park showed a gain of about \$6,000,000. FUEL GAS PLANT.

The suburb of Winnetaka has decided to construct a fuel gas plant. Plans have been ordered drawn, and it is expected the plant will be in operation late in the fall. The village has committed itself to an absolute municipal-ownership policy, and will grant no more franchises to corporations for any public utility.

will smile this morning when they see the name of their "baby," little Blanche Marble, in eleventh place. Little Blanche is a wonder as a vote getter and is going to make some of the older contestants step lively in order to keep ahead of her.

Two of the late starters in the race are forging to the front with remarkable rapidity. They are Bessle Barclay and Lucille Zander, two very bright girls, who are chock full of business and evidently in the contest to win. Miss Zander has been attending the University of Southern California for two years, and she is determined to win a scholarship in that spiendid instituy tion for the coming year.

Miss Elizabeth Dehmlow, an exceedingly clever girl who is staying on a ranch at Clearwater, celebrated her fifteenth birthday in Los Angeles visiting her widowed mother. Miss Dehmlow is working for a business college scholarship, and is waging her own battle, single-handed and against great odds. She merits support of all good people who believe in extending the helping hand to a girl who-has to struggle for an education.

Lewis H. Nolan, Soh Sang Nan, C. Hix Thornburg, Stella Callender and Julietta Dumont Campbell are five very worthy candidates, who are closely bunched in the race. All are working under difficulties, but are gradually making progress. Some very interesting letters regarding Soh Sang Nan have been received, and some extracts from them will be published at the earliest opportunity.

GAINS AND LOSES.

The "Pearl of Whittier." Miss Ellis, by making a gain of 3000 points yesterday went up to the head of the column. Gertrude Pedelty of Santa Ana gained over 2000 points and remains second in the race, while the young Señor Saenz of The Palms, who added nothing to his score, dropped back to third place. Don Manuel will come in about the close of the week, hywever, with enough points to place him in the lead again, unless some of the seforitas also have something up their sleeves to exhibit before the week is ended.

One of the steadiest plodders in the contest is Porter Blackburn of Gardena. He has once more advanced his position and now is in fourth place, while Miss Hibbard of Pomona, who has been looked upon as one of the sure winners, has dropped back to fifth notch.

WILLIAMS BUSINESS COLLEGE.

This school has been under its present management during the last two years, and has reached a high grade of efficiency. It provides thorough, complete commercial and shorthand courses with a preparatory English and civil service department, including Spanish for the coming year. The student has his choice of the two standard typewriters and of the Ellis, Williams & Rogers, and Sadler Budget systems of book-keeping, and as the instruction is largely individual, his progress is limited only by his ability. The proprietor, D. Brehaut, is a Normal School graduate, and has had several years' experience in high school and business college work. The rooms, which are over the First National Bank of Pomona, are models for lighting and convenience, while the furniture is of the finest polished oak. The Times is in possession of some excellent testimonials from former pupils of Prof. Brehaut, testifying to his ability and efficiency as an instructor. A scholarship in the Williams Business College of Pomona, will be one of the prises awarded in the close of the scholarship contest, and it will no doubt be gladly accepted by one of the successful contestants out Pomona way. # Flood Goods from Kansas City and St. Louis

PRICES ONE-HALF AND LESS

We told you of this Sale of Flood Goods in Sunday's paper. Monday's business was something enormous, and the lots vanished as if by magic. Before the day was half over most of the advertised items were closed out. If you were disappointed the fault was yours, for we told you to be prompt. The lots remaining are too short to advertise, but you'll find in our wash goods and domestic departments many lines of damaged goods from St. Louis and Kansas City floods at wonderfully low prices. Some pieces are badly damaged, others do not show the ravages of the flood at all, but the prices are all shot to pieces.

Los Angeles has the beginning of good park system in the shape of a dozen or more parks in the city. Five are of considerable size, four of them containing good-sized lakes. Perhaps, some day, we shall have the much-talked-of boulevard connecting the parks with each other. The chief bilities of park improvement lie however, in Elysian Park, that pic-turesque hill tract of over 500 acres, In the northern part of the city which, in the hands of a skillful landscape artist, backed by sufficient means, might be made one of the most picturesque and beautiful parks In the world. Then, just outside of the city, but belonging to it, is Griffith Park, with its more than 3000 acres, said to be the largest city park in the world. No attempt shou made to transform this into a formal sible in a state of nature, with little pavilions here and there, supplied with water, where the people may go with their families and picnic. Twenty years from now, when Los siderably over 500,000, and is thickly built up with residences to the north-ern city limits, the citizens will apantages of having such a large slice of nature within easy reach.

If there is any city of the United States in which a liberal and publicspirited policy of park improve indicated, it is certainly Los Angeles, for is this not preëminently a pleas ure and health, resort for people from all over the country-indeed, from all over the world? How shortsighted is it, therefore, for our city govern ment to pursue a cheeseparing policy in regard to the parks, when other cities which make no pretense of attracting pleasure and health seekers are willing to spend millions of dollars

As it will be those who come after us that will benefit the most by a comprehensive system of park im-provement, it is only right that they uld bear most of the expense. The city would be justified in issuing longting the present generation pay the interest and the coming generation the principal. Meantime, however, it is certainly the wish of a vast majority of our people that a liberal policy should be pursued by the city government in regard to park imrovement. The management of the en no suggestion of extravagance or carelessness in the disposition of the funds. It is true that the city is spending a very large amount of money, more, indeed, than its income. It is also true that we need many not more useful, than parks, but that is no reason why we should be niggardly in providing for these public breathing places. A man who is in good circumstances does not omit having his lawn cared for, because

archist is to ignore him, so far as this may be done without actual danger to society. As a morbid craving for notoriety is his principal impelling motive, to deprive him of that notoriety, or to withhold it from him, is about as severe a form of punishment as can be inflicted upon him. When Leon Czolgosz took the life of the beloved McKinley, he expected that the act would bring him the sassin Guiteau achieved by the mur-der of Garfield. He expected, no doubt, to pay for his act with his worthless life. But in the meantime he would live through several (to him) glorified months of notoriety, during which he would be "the ob-served of all observers," the cynosure of all eyes, the person most talked about in all the world. How different was the realization of his distempered dream. Instead of the notoriety he anticipated, and the opportunity to gloat over it, he was hustled-into solitary confinement, not allowed to . receive visitors nor to read the daily papers, and, in fact, practically cut off from all communication with the outside world until his trial. This was of short duration. No legal wrangling and squabbling in an effort to save his miserable neck. Found guilty, his punishment followed quickly. The certificate must also show that the applicant does not advocate the killing of officers of the government. This law is a wholesome one, and it is to be hoped that it will be strictly con-strued and rigidly enforced by every judge before whom may come appli-cations for naturalization. The in-habitant there were just about readhabitants there were just about ready to descend upon the City Hall en masse when the sprinkling wagon began to perambulate in a cloud of its own raising. SAM PARKS AND HIS DUPES.

In the city of New York. Sunday, union workmen in the build-ing trades, to the number of about 100,000, decided by a majority vote to reject the plan of arbitration suggested by the Employers' Association and to stand by Sam Parks, the notorious walking delegate who is un-der several indictments for having extorted money from employers on promises of settling strikes. Parks has taken thousands of dollars from employers by this blackmailing process He boasts of having caused more strikes than any other man in the country. He acknowledges baving extorted money from employers as the price of sending their employes backto work, after having ordered them out on come trivial pretext. Although, as stated above, votes representing 100,000 unionists were cast on Sunday in favor of sustaining the blackmaller, Parks, in his disreputable tactics, the end of the building trades tie-up in New York is apparently near at hand. Twenty the strongest unions, have broken resumed work on Monday. at an alarming rate during the past few years."

About how many years has it been since the reading of the Bible was forbidden in our public schools? "Tis but the effect following the cause. The Bible contains a code of morals which, if taught to the young, will result in giving to our nation good citizens. Let it be introduced into the curriculum of every grade in our public schools in some short method, and in one decade a marked improvement will take place, from the boys on the streets, up to the college graduates. The Bible is the foundation upon which our beloved nation has been built; shall the prejudice of a few be allowed to undermine our building of which we are justly proud?

quelled, the one in Venesuela appears Hard Work Declared to Be the to be keeping President Castro reason-Recipe for Success-His Travel Experiences.

"Now look at the big ones!" What are they? Just hard work. You can't keep a hard worker down."

Words like these strenuous words plenitude last night from the lips of Frederic J. Haskin, a noted syndicate newspaper correspondent, who arrived in Los Angeles yesterday and is dom-iciled for a week or ten days at the Angelus. Mr. Haskin is himself a Angelus. Mr. Haskin is himself a very hard worker, and none so well as he knows the price he has paid in coin of arduous labor for the success attained by him in the weekly letters that now appear simultaneously in twenty-nine of the metropolitan dailies of America. He can easily boast of a million readers every week. Mr. Haskin is a regular contributor to the Sunday magazine of The Times, and the many readers will recall with delight his interesting and instructive letters from

reacers will recall with delight his in-teresting and instructive letters from Cuba and Panama.

Personally, Mr. Haskin is as genial a gentleman as one would care to meet anywhere outside of an angel's skin and doubtless a thousand times more energetic than if he were in one.

PREDERIC J. HASKIN.

Well-traveled and well-informed, he is polite and entertaining to a lasting degree—that is, you hate to break off the interview, even knowing that he has just come in from a hot, dusty seventy hours' train trip and would much rather be in bed than felling his varied experience to a stranger.

The "Soup House" is still the one center of activity in the Randsburg camp, according to Superintendent Barton of the Yellow Aster mine, who also reports that the desert country is warming up.

No attempt is being made by the Yellow Aster management to open up its property, and in fact everything is being done to put the machinety and property in shape for a long shut-down. The new hoisting plant of the Consolidated Mines Company has been completed and that property, as well as the Butte Lode, is closed as tight as a drum.

Considerable ore is being shipped from the Stringer district to the milis at Johannesburg, but very little is being done in the lime of development.

The strikers continue to draw their two meals a day at the "soup house."

He says that department officials at Washington are already becoming entustation or the country and the more they study into the benefits that national irrigation will confer the more easyr they are to boost along both irrigable and non-irrigable lands.

Most entertainingly does Mr. Haskin talk of his own work. With a syndicate of twenty-nine papers that ought not to pay him less than \$50 a week each, he is in a position to give the effect East a lot of information about the West that will do us lots of good. His weekly "stuff" is played up everywhere along with George Ade's fables, Mr. Dooleys fun and Frank G. Carpenter's fact. Insamuch as Mr. Haskin is only 30 years old, he may certainly be said to be "comin" on."

"Few people," says he, "can remise the difficulty of procuring material and writing a weekly letter for a newspaper syndicate particularly in foreign countries. The correspondent's life is a hard one. Traveling is no soft snap; there is a constant change of food and water, and many a bed was never made to sleep upon. In the West Indies and Central America there is little or no organisation among the foreigners from which to secure news. You have to break new ground every week, and to get your facts accurately, but quickly, is ofttimes most difficult. Then, too, a fellow is exposed to all the rigors of climate and disbase imaginable. Tellow fever, smallpox and cholera abound in the tropica, and granted you escape infection it is not so easy to keep clear of quarantine regulations. But it is pleasant work if one is consecrated to his opportunities and introduces patrotic motives into the task. It is surely a pleasure for me to know that many a Washington official, as well as managing editors all over the country eay pleasant things about my work."

It was at this juncture in the interview list night that Mr. Haskin

ly a pleasure for me to know that many a Washington official, as well as managing editors all over the country say pleasant things about my work."

It was at this juncture in the interview hist night that Mr. Haskin said things that proved him an aposite of hard work.

During his recent trip to the West Indies, Mr. Haskin was suspected of being a spy. Shortly after landing in one of the little independent island republics there, he wrote an article about the place and in the story said several uncomplimentary things about the government. The copy was then given to a native printer to be set up in type and run off on a press.

"I have found," said Mr. Haskin, "that, instead of manifolding from a typewritten copy, it is cheaper and less bother on my travels in the tropics to send the original manuscript to a printing office. This is easily accomplished, because the Spanish and English alphabets are allae, and the two tongues are everywhere spoken.

from the president politely requesting me to appear at the palace. Not knowing what was wanted, I hurried along, only to be unceremoniously quizzed about my business. An officer of the government secret service, detailed to watch the printing offices, had gone across my stuff and conficated it. It took me a long time to prove that I was not a spy, but simply a peaceable newspaper correspondent. The officials thought I might have been a rebel resorting to the printing press to stir up a revolution. It is a common practice in the republics down there for bands of rebels to carry presses and type around with them. printing notices defying the republic and inviting insurrection. They establish their illicit printeries in the woods and in caves."

THE OIL INDUSTRY CTANDARD PIPE LINE NOT A FAILURE.

Kern Oil Will Then Flow Into Tanks at Point Richmond at Rate of Ten Thousand Barrels a Day-Efforts to

(BY THE ASSOCIATED PRESS-P.M.)

BAKERSFIELD, July 14.—It is stated that the stream of oil through the Standard pipe line will reach Point Richmond on Monday next, and the officers of the company claim that the capacity of the line will easily be 10.—000 barrels a day. All the talk about the line being a failure is, therefore, claimed to be as nothing, and it is now said that it will be hardly necessary to construct more than four additional pumping stations.

In proof that the Standard has known all the time what it was doing it is stated on good authority that several carloads of Kern River oil were shipped East and the actual experiment of running the oil through an Ohio pipe line was made. In any event, it appears that the discussion of the failure of the \$1,000,000 enterprise was premature, for on Monday next, the oil will be pouring into the tanks at Point Richmond.

TO INCREASE PRODUCTION.

All the big operators in the fields on the Coast and south of Tehachepi are exerting themselves to the utmost in the effort to increase production owing to the enormous demand which exists for light grade oil. At Olinds, Fullerton, Whittier and every point, it is said that the supply is short, and the companies are doing their best to drill more wells to get more. Coalings is increasing its production and has excellent light oil, but not sufficient as yet to relieve the pinch. Moreover, the increase in production is not coming about rapidly enough; in fact, it is said that it is not enough by far. Under these circumstances, the outlook for the opening-of another light oil belt west of the mountains in Carisa. Elkhorn and Cuyama is considered excellent.

There has only been one thing that could ever be truly a against Redondo and that is there were too many sale

At the meeting of the Board of Trustees on Monday night an ordinance was passed that

## Shuts Out All Saloons.

Property at Redonde is lower priced than at any other seaside resort and we want to emphasize the statement that those who buy lots there this summer will make big money. Prices are low; property is gilt edged, location, is perfect and values are 'way down.

Our Redondo agent, M. J. Hutchinson, who is located in the big tent at the head of the plank walk near the pluage, will take pleasure in showing property and queting prices. We have ne other agents.

THE BASEBALL SQUABBLE. PORMAL CONFERENCE TODAY.

[BY BIRECT WIRE TO THE TIRES.]

CHICAGO, July 14.—[Exclusve Dispatch.] With the two major leagues threatening to spoil their peace agreement with a new quarrel, the minor leagues are uniting all of the baseball organisations except the National and American leagues under one head. At the invitation of President Hart of the local National League club, representatives of the Pacific Coast League, the Pacific National League, and the National Association of Minor Leagues, were hobmobbing together at the Brooklyn-Choago game today and getting acquainted with each other. A formal conference will be held tomorrow, in which the two warring factions on the Pacific Coast may be combined and all get together under one national agreement.

The magnates brought here by President Harris of the San Francisco club, and President Morley of the Loc A-PORMAL CONFERENCE TODAY.

The magrates brought were: President Harris invitation were: dent Harris of the San Francisco club, and President Morley of the Lor Argeles club, in the Pacific Coast Leag: President W. H. Lyons of the Tacoma, and President D. E. Dugdale of the Seattle club, in the Pacific National League, and Secretary Farrell, representing the National Association of Minor Leagues. President Hart has always been an advocate of "gettins together" in baseball disputes, and believes that as soon as the magnates of the rival leagues get acquainted, a long step will have been taken towards an amicable settlement of their differences.

the Auditorium, and while Lucas and Dugdale are at the Great Northern, the formal meeting will be held at the Auditorium tomorrow, and the prospects are apparently bright for reaching some kind of an agreement which will stop the war on the Coast.

All the magnates here were evasive in discussing any probable terms of settlement, but it is almost certain that, if any agreement is reached, a way will be found to give the Pacific Coast cities but one team each, and thus stop the competition which, some of the magnates say, threatens to evenfually kill the game on the Coast.

The sult was a surprise, but when the dog is taken home and washed the coast feels like that of a lamb. Many tricks of a similar nature have caused the action of the Kennel Club.

SPIN OF THE SHAMROCKS.

[BY THE ASSOCIATED PRESS—A.M.]

NE WYORK, July 14.—[From Steamer Erin, via De Forest Wireless.] The
Shamrock III was dressed in a new and
larger suit of sails than any she had
worn on this side of the Atlantic when worn on this side of the Atiantic when she left her moorings today and worked a few miles up the ship channel for a sail-stretching spin. Her new outfit of sails was larger, because of the tailer mast steeped, while she was in the Erie Basin. There was a light morth wind and good prospects of a raze. The Shamrocks started at the entrance of Gedney's Channel. A squall brought up a 15-knot breeze off Seabright and sent the yachts fairly flying off shore with the lee rails awash. Sir Thomas Lipton said he did not intend to give the boats a race, but merely a sail-stretching trial. At 1:05 o'clock the Shamrock I hauled down her mainsail and headed for Sandy Hook. The Shamrock III followed suit.

JIM CORBETT IMPROVING.

JEFF NOT WORKING HARD.
[BY DIRECT WIRE TO THE TIMES.]
SAN FRANCISCO, July 14.—[Excl. SAN FRANCISCO, July 14.—(Exclusive Dispatch.) Jim Corbett is improving. There — no doubt on that score by those who have recently seen him perform at the gymnasium at Alameda. Yesterday, over one hundred friends from this city made their way to Croits Garden. Corbett was delighted by the presence of his admirers, and immediately put on the gloves and boxed nine rapid rounds with Yank Kenney and Sam Berger. There were no love taps dealt by his opponents, and no stalling was permitted. It was a case of give and take from start to finish. At the conclusion of the boxing, the partners were completely exchausted, while Corbett was apparently as fresh as when he stepped into the ring.

"That is the first time I really thought Jim would beat Jeff," said Harry Corbett. "His friends come to me and tell me how fast and clever he is. I always knew he had speed, but I doubted his ability to carry it through a long route. Now I know he can do it, and I feel condent he will beat the big fellow and win back the champlonship in August."

Corbett weighs 182, and expects to weigh 185 on the night of the fight.

A letter came from Harbin Springs today, saying Jeffries had started out for deer-hunting, which begins today. Fitssimmons accompanied him, and as both are good shots, Delaney expects to have venison for some time to come. Jeffries will be back Friday night. Then Jeffries and his party are invited to Lower Laske by a rich merchant who has placed his fine country seat at Jeffries's disposal. Delaney enogurages Jeff to go on such trips as he believes it does him good, and he does not want him to work too much.

NEW YORK, July 14.—(Exclusive Dispatch.) Hermis and other horses owned by E. R. Thomas started for Saratoga today. The performance of the young millionaire's star racer at the Spa will be watched vary closely, because upon his success or failure, it is believed, depends Thomas's decision to remain actively in racing.

A few of the Belmont string will be shipped tomorrow, and the remainder will be taken there a week from Thursday. Green B. Morris's California horses, together with those of C. P. Waterhouse, are scheduled for shipment Thursday. The Waterhouse lot are in charge of C. Pierce during the absence of his brother-in-law, Charles T. Patterson at West Baden, where he went for his health.

Waiter Jennings of California has decided to leave, Saturday, with his Rancho del Paso string. He desires to get the horses away from warm weather, as some of them lost flesh while racing. Murray will ship James V., Baseful and others of his stable along with the Jennings horses.

Monday, H. M. Ziegier and F. Burlew will ship their stables. E. H. Hanna has arranged to send the Columbia stable lot the same time the last division of the Belmont stable starts. Friday, July 24, Frank Brown will ship the horses of Senator McCarren, and Al Aste plans to send his string the same day. Over two thousand racers will be at Saratoga when the post bugle calls.

The rules set forth that a dog shall be disqualified if any one of a number of offenses can be proven to the statisfaction of the committee of the show. The production of "bristly" hair on a terrire is so common that preparations are advertised for the purpose. On the

THE TIMES' CUP RACE WILL OCCUR

Racing Craft from San Francisco to San Diego Will Contest for Trophy. Banquet and Dance at Brighton Beach

San Diégo, Santa Barbara. Redondo and other points, will participate in the race, which, unless all signs fail, will be one of the greatest contests everheid in southern waters.

It is hoped that the outside clubs will not give the local yachtsmen as big a frost as they did at Santa Barbara, where all were promised and none came.

For some time past the Regatta Committee in charge of the South Coast Club has been devoting its attention exclusively to this race, and yesterday complete arrangements were about made. The House Committee, composed of J. J. Jenkins and George Rice, has about finished its preparatory work, but there are several minor things yet to be done by the Regatta Committee.

The start of the race of July is will be at Brightom Beach. One large schooner-yacht will act as stakebot, the "Sweetheart," the "Lurline" and the "Lillian" all being eligible, and one of these will be chosen. All the schooners will be fully decorated in honer of the event.

The first leg of the triangular course will be run down to the end of the long Beach wharf, there turning a small stakeboat and making the beat to windward to the extreme present end of the new government breakwater, rounding a stakeboat anchored fifty yards from the end. Turning, the little racers will catch the regular trade wind, which will give them aspinnaker run back to Brighton Beach. Following the regatta a banquet will be served to the yachtsmen in the Brighton Beach conferred with Mesera. Jenkins and Rice of the House Committee yesterday, regarding arrangements to be made for the entertainment of visiting yachtsmen and spectators. He offered a flat rate of 31 per day to all yachtsmen for the retextainment of the scholing of the race, following the banquet. In the race here will doubtless give the pretty little maiden Venus, pride of the South Coast Club, a tight shows for first honors. Whether any of the boats in San Diego, Santa Barbara, Redondo and other coast points will stand on an equal footing with the Challenger and Venus is a question that is taxing the brains of many yachtsmen.

that is taxing the brains of many yachtsmen.

It will be a spectacular and thriling race. The course will be about ten miles in length, and the beat to windward, about five miles, will be the longest leg of the triangile. Every boat will be provided with numbers, and the regular handloaps will be allowed. The start will be made about 1:30 p.m. On the following day, Sunday, July 36, the second regular regatts of the club will be held. This is the event postponed from July 19, as the is believed that it will not be possible to get the boats back from Santa Barbara by that time. All clubs along the coast are invited, and in the contest for The Times' trophy any recognized yacht. are invited, and in the contest for The Times' trophy any recognised yacht club will be allowed to enter.

Arrangements have been made with the San Pedro, Los Angeles and Salt Lake Railroad Company to run a special "regatta flyer" to the beaches on the 25th inst., which will leave Los Angeles about noon and reach the seade in plenty of time for the start of the race. It is likely that a brass band will go along with the excursion.

CHANCE'S NEW HONOR. Local baseball fans will be pleased to learn that Frank Chance has been nade captain of the Chicago National League team and enters upon his du-

The writer les boy, for he has played here many times and is one of the best-known ball players on the Coast. The writer well remembers Chance as the eatcher of the Fresno team seven or eight years ago, when that team was playing against other teams in the San Joaquin Valley. At that time Chance was the star of his team and it was not long before he was pleked up and taken East to play in fast company. He has been on the Chicago club several years, first as catcher and fater as first baseman. It seems that he suffered with eye trouble as a result of continuous work behind the bat and was changed to first base, where he made good without any extra effort. He is a natural ball player and every local fan will be gind of his new honors at Selec's hands. The Chicago team elected him captain on account of his popularity and owing to the fact that he is about the oldest player in point of service on the team.

Burglar Ruins Plate Glass.

In the hope of securing \$75 in gold displayed in the show 'window of the Regal Shoe Company on West Third street, an unknown thief ruined a fine plate-glass window before daylight yesterday morning. The money was in plain sight near the glass, and the would-be burglar, with either a dlamond or a chisel, cut a gridiron of deep schatches in the glass until the pressure of a hand would have broken a hole in it. This pressure was not applied, for the thief was evidently frightened away. The ruined plate glass was worth \$100 or more.

Laws Must Explain

Laws Must Explain.

A. Laws will be given an opportunity today to explain how he came into possession of a watch worth \$75, the property of C. C. Clark, formerly a member of the fire department. Clark was permitted to reaign after having been on a prolonged spree, and he went to Needles. He lost his watch the last night he was in Los Angeles, but whether it was stolen is not known. The detectives found that Laws had pawned the timepiece, and that he made no effort to find the owner of it. Clark will arrive today from Needles, and it will then be decided whether or not Laws will be prosecuted.

More Fruits Wanted.

More Fruits Wanted.

Fruit is needed by the Chamber of the Commerce. Good ripe specimens of the commercial variety, and not freaks, are wanted for exhibition purposes. Already some fine specimens have been received, and are being prepared by Charley Wilson in the fruit vault in the new Chamber of Commerce building, but more are needed. Yesterday some of Lane's improved apricots were sent in by O. C. Lane of Burbank. They are beauties, and will be taken to the St. Louis fair. Work on the fair exhibit is progressing favorably, and already some fine fruits and vegetables have been prepared. While an effort is being made to confine the exhibit of both fruits and vegetables to as near a representative showing as possible, real freaks will be welcomed, and in fact fruits showing abnormal development are desirable.

Catholic Reunion.

The Catholic laymen of Los Angeles held an enthusiastic meeting last night to further plans for the annual picnic and reunion of the Catholics of Southern California. These annual events have become very popular, and for the past three years have brought together large crowds. It is expected the attendance this year will be fully 4500. Officers for the present year were elected as follows: Dr. A. J. Scholl, president; Adam C. Derkum, secretary; J. P. Dwyer, treasurer: Executive Committee, Ed. Tynan, chairman, Martin Betkowski, Joseph Smith, M. T. Collins, P. P. O'Brien. A committee was appointed to visit the various beach points to determine which will offer best inducements, and included Dr. Scholl, P. P. O'Brien and Martin Betkowski. A meeting will be held Sat-

Our ability has been proven—the success of our work unquestioned.

The treatments that Dr. Harrison & Co. give are so thorough that they have proven more uniformly effective than all other treatments. Their improved methods are so far in advance of the usual routine methods that the phenomenal success attending their treatments should be satisfactory evidence and positive proof of their superiority. All ailing men should consult none but the best and most reliable physicians. It is easy to find men of no special ability and limited experience. Such men should not be consulted. Poor advice and poor treatment are worse than none. DR. HARRISON'S qualifications are ability, experience and reliability. Consultation and examination free.

Dr. Harrison & Co. guarantee a cure in every case of varicocele they treat. We daily talks to the people because we what we can do, we can put it in no etronger language. Any man suffering with varicocele can be convinced of the truth of our statement by calling on us.

Stricture.

Affections of men commonly described as "weakness," according to our observations are not such, but depend upon reflex disturbances, and are almost invariably induced or maintained by appreciable damage to the protate gland. Under our local plan of treatment, directed toward reducing the enlarged and awellen proe-tate, immediate results, as indicated by increased circulation and renewed strength, are observed. Our colored chart, which we send free on application, is interesting to anyone wishing to study the anatomy of the male.

# Treatment for

I Remove the Exact Cause

Many men claim to have been treated many times for certain conditions with-out apparent benefit, and I have found in many cases, for conditions which never existed, which in a measure accounts for failure. The unscientific treatment of many of these troubles is the direct cause for continued use of treatment, due to the kind of treatment rather than the disease itself and ment rather than the disease itself and especially where benefit is not perceived immediately after treatment. By my method of treatment I am able to overceme and cure conditions that are too stubbern and resist other forms, and I feel safe in saying the cures are more

BL --AZUSA, July 14.-A furious underbrush fire is raging in San Gabriel Caffon, about six miles from the entrance. It started at 9 o'clock this morning on the north slope of the main cafion, just west of Sharp's Flat. As the mountains at that point were thickly covered with light growth, the flames spread with great randilty. Forest Rangers great rapidity. Forest Rangers Hiett and Ryerson were quickly attracted to the scene by the columns of smoke, and led a vigorous assault on the destroyer. orous assault on the destroyer.
The rangers impressed every
passer-by into the service, and
soon had a large force of fire
fighters. There was unusually
heavy travel up the caffor today, for the opening of the deer season tomorrow, and many of those who went up to hunt will stay to fight fire. It is thought that unless dangerous winds spring up the flames will be under control by tomorrow night.

The fire is attributed to the cigar or cigarette of some careless traveler through the dry brush.

Fell With Lighted Lamp in Her Arms, When Overcome by Epilepsy in Her Room-All Saloonists Close Without Official Notification.

REDONDO, July 14.—In attempting to save herself from a fall, Miss Fannie Gregg brought death upon herself in the horrible form of burning this morning. The accident occurred in the woman's room at the Martin Villa lodging-house, about 6 o'clock this morning.

morning.

Miss Gregg was heating a curling iron over a lamp. She was subject to epileptic fits, and apparently was sudepileptic fits, and apparently was sud-denly attacked. As she fell backward she seized the lighted lamp in her mindless thought to save herself. The woman fell flat on her back, the oil pouring out over her clothing and tak-ing fire. Death came quickly, for she was fearfully burned on the chest and abdomen.

was fearfully burned on the chest and abdomen.

Smoke and odor aroused other lodgers, who broke into the room. Miss Gregg was lying upon the floor beside her bed, in a frame of flame. The fire was quickly extinguished and the woman removed, but she had been past human ald for several minutes. Coroner Trout conducted an inquest over the body this afternoon, the jury returning a verdict of "acidental inclineration." Miss Gregg, was, 41 years old, a native of New York, and a resident of Oxnard. She came here but a few days ago to visit her sister-inlaw, Mrs. A. M. Tillotson, who conducts the Martin Villa.

OLD SAILOR DIES IN HUT.

SAN PEDRO, July 14.—C. Sigbjornsen, an old sailor, was found dead in a small hut in Happy Valley this morning. He had been ill for some time, and is believed to have died for want of proper medical attention. He was a native of Norway, and has sailed on this Coast since 1890.

W. G. McGimpsy, Col. De La Vergne, George and William Iners and W. W. Beach, directors of the San Pedro Cambing Company, were here yesterday. They went out in Harry Lynch's launch Pearl in search of a suitable location for their large new cannery, which is to be built soon.

The Home Telephone Company of Los Angeles has purchased the building on Beacon street, near Sixth, recently occupied by the Bank of San Pedro. The consideration is said to have been \$11,000.

The San Pedro Odd Fellows installed the following lodge officers last evening: N.G., W. D. Coons; V.G., Henry Baly; Secretary, J. S. Thomas; Treasurer, Feter Pearce; Warden, John Brown; Conductor, P. L. Iverson; I. G., T. Crowley; R.S.W.G., H. M. Long; L.S.W.G., A. A. Morr; R.S.V. G., D. P. Davis.

Mrs. Nicholson and daughter, Miss Genevieve, have returned from Catalina, where they spent a week.

The Santa Fé baseball team of San Bernardino will play a match game with San Fedro here next Sunday.

Miss Ethel Loomis will leave tomorrow for Bear Valley, where she will visit friends.

SUMMARY OF THE DAY.

Chief Eiton yesterday filed his estimate of the cost of running the police department for the fiscal year.

The charges made by Charlie Choung, a mendactous celestial of bad repute, against Policeman Roller were referred to the Chief for investigation by the Police Commission yesterday.

The bridge bonds were transferred to the purchasers late yesterday afternoon.

Assertions that the dead animal con-tract is being violated and that citizens are being made to pay for service provided by the city were made at the City

open court yesterday for contempt on the ground that she had sought to in-fluence a juror in the Hill will case. An indignant taxpayer yesterday charged the Board of Equalization with "standing in" with the County As-sessor to raise the valuation of Spring-street real estate.

Chief Wants Provision Made for of Charlie Choung Referred to the Chief for Investigation.

For the maintenance of the Police Department during the fiscal year 1208,785, is asked by Chief Elton, who submitted his estimate to the Police Commission yesterday morning. Last year the Police Department expended 162,862.78, which was \$4683.78 more than was allowed in the budget. Chief Elton asked that provision be made in the budget for twenty-five more policemen. As patrolmen receive but \$75 a month for the first year this itam is \$22,500. The Chief is desirous of shortening the beats in the business section from six to four blocks and more policemen are seriously needed in the outskirits of the city. The salaries of the 100 patrolmen now in the department this fiscal year will amount to \$110,000. Chief Elton desires \$4500 for a secret service fund. Last

CITY HAS MONEY.

BRIDGE BONDS TRANSFERRED. BRIDGE BONDS TRANSFERRED. Just before 5 o'clock yesterday afternoon the bridge bonds, duly signed and sealed, were delivered to the purchasers. The \$100,000 face value of the bonds was paid in two certified checks. The check for \$75,000 was drawn on the Southwestern National Bank and one for \$5,000 on the Los Angeles Trust Company, which does a banking business. The accrued interest, amounting to \$447.90, was divided in the same proportion between the two banking institutions, certified checks being tendered in payment.

three-fourths of the bridge bonds and the Los Angeles Trust Company one-fourth.

The money was paid by and the bonds delivered to J. C. Drake, president of the Los Angeles Trust Company, and Addison B. Jones, assistant cashler of the Southwestern National Bank.

F. H. Howland, representing the United States Mortgage and Trust Company, extrived yesterday from New York. He is charged with certifying to the signing of the bonds by the proper city officials. For \$2500 the company engraves and certifies to the entire issue of \$2,180,000 in bonds.

At 3 o'clock the work of signing the bonds began in the Mayor's office. Mayor Snyder has had much experience in signing securities and he affixed his name to 125 of the securities in twenty minutes. The bonds then passed to City Clerk Lelande and City Treasurer Workman, who added their names. The pigmy seal of the City of Los Angeles was then added in one corner and the bonds, which a few minutes before were but sheets of paper, became binding obligations on the city for \$100,000.

The transfer of the bonds for the money took place in the City Treasurer's office. Every step in the proceeding was closely watched by a representative of the City Attorney.

Today the \$480,000 common school bonds will be "signed, sealed and delivered." according to present plans, Last night Mayor Snyder stated that he would be out of the city and that the signing of the bonds would not take place until tomorrow, but after noon a change in plans was made and it is hoped to close the bond deal today.

Cost of the Schools.

The Board of Education wants \$206.

209.81 from the city for the support of the schools for the next school year.

During the last fiscal year the city paid out \$122,000 for the support of the schools. The total salary roll of the school department is \$611,340. Miscellaneous improvements will require \$130,550 more. To carry over to the next year \$140,000 is asked. A total expense of \$882,000. To meet this there is a balance on hand of \$155,425.19, and the income from State and county is estimated at \$460,755, leaving the first mentioned amount to be made up by the city.

DEFENDANT A WITNESS.

DEFENDANT A WITNESS.

More features and incidents of popular interest were crowded into yesterday's proceedings in the Melrose murder case than have enlivened any previous day of the trial.

The chief witness of the day was the defendant, Norman M. Melrose. Aside from the merits of the case—whether in killing W. H. Broome he acted in self-defense or constituted himself amurderer—the fact must be conceded that with one exception Melrose proved the strongest witness that the defense thus far has called to the stand.

At the morning session, Mrs. Melrose, the defendant's wife, was the chief witness. Throughout the day the courtroom was crowded, the attendance being specially large when Melrose was testifying.

The defense sprung a surprise at the opening of the morning session by calling to the stand. District Attorney Fredericks to testify regarding his having employed Dr. J. C. Collyer of heaving employed Dr. J. C. Collyer of the stand.

BOY ON THE STAND.

Stanley I. Mouser, aged 13, took the stand. As Meirose passed Broome on the afterneon of the fateful day, in the neighborhood of Correy avenue and Fourth street, the boy heard Broome say: "I wonder he (meaning Meirose) would not pass here without being afraid that I'll turn a barrel on him"—meaning a barrel of his shotgun.

The testimony of Mrs. Mary J. Wilson was to the effect that Mr. Nichol ca witness for the prosecution) had told her that he saw Broome run for his gun.

The defense called to the stand Mrs.
Norman M. Meirose, wife of the defendant Mrs. Meirose testified to the poisoning, last September, of two pet dogs and a pet deer owned by the Meiroses, and told how the tracks of the supposed poisoner led from their back fence to the porch of Broome's house, near by. Subsequently she and her husband had measured tracks made in their presence by Broome's feet, and found they corresponded exactly with the tracks of the supposed poisoner.

Mrs. Meirose described how Broome had stopped her and a woman friend on the street near the postoffice and declared that he would kill Meirose if the latter ever attempted to speak to him. Witness also told of the time when Meirose and his son, Guy, each armed with a shotgun, and seated in Broome's buggy, pursued Meirose between the Bochert store and the postoffice, whistling, hissing and laughing at the defendant.

The prosecution declined to cross-examine Mrs. Meirose.

DETECTIVE MARSH'S STORY.

"Do you know Dr. Coliver of San Bernardino?"
"Yes, sir."
"Doctor."
"Did you ever employ him in this case?"
"Yes, sir."
"For what purpose?"
"To examine for blood spots on this revolver that has been introduced here as evidence."
"Did you receive a report from him?"
"I did."
"Where is that report?"
"Well, I wouldn't be sure where it is. I don't know that I could even find it. I know what it is, though."
"Would you be able to procure it by a search through the papers in your office?"
"Yes, sir."
"Oid Dr. Coliver make a personal report to you?"
"It was made within a week, either way, of the preliminary examination in this case."
"Will you kindly make immediate search for this report among your pa-

When court convened yesterday morning. Judge Wilbur stated what Juror Butler had told him. The juror was put on the stand and repeated the story and he was followed by Photographers Porteus and Schumacher, as experts, who testified that the photogiven Butler, was a reproduction. Judge Wilbur then requested contestants' counsel to make an affidavit as to the facts, and when this was submitted, he ordered the arrest of Mrs. Driggs in court and she was remanded to the custody of the Sheriff until 2 o'clock.

At that time at the request of the defendant, she was put under bonds, the amount being filodo and the examination of this variation of her case was set for next Friday morning. She was again remanded to the custody of the Sheriff, in lieu of the bond, and although she rustled around several times during the afternoon to get the bond, she could not. After court adjourned for the day, she was taken down into the Sheriff's office, but instead of locking her up, he let her go in charge of a deputy, after she had cried awhile in the Sheriff's inner office.

There was nothing else exciting during the day. Leon Moss argued all day on the opening argument for the contestants and finished about 1-20 o'clock. Counsel for Mrs. Driggs will make her opening statement this morning.

submitted to that official a written report.

This written report was produced by the witness and made an exhibit in the case. It declares that there were bloodstains on the weapon. This is in support of the defense's claim that the two wounds in the back of Broome's head were made by blows from Melrose's revolver, instead of by the first bullet fired at Broome by Melrose.

Dr. Coliver stated that he was paid \$100 for his examination of the revolver.

Mrs. Selma Bochert, who with her husband, kept the general store at Acton, took the stand for the defense. She made fun before she left the chair by her brisk replies, in cross-examination, delivered in a rich Dutch broque. After testifying that upon one occasion, while Melrose was smoking a cigar on the store porch, Broome with a shotgun across his knees drove up to Melrose and stopped and stared at him. Mrs. Bochert was called down by the District Attorney for making a remark outside of her answer. She "came back" so tartly that the court had to intervene and instruct the prosecution that its remarks must be addressed to

Nichol's yard and dumped out my load. Broome following to the opposite sidewalk.

"As I came out of the gate with the wheelbarrow and started east along the sidewalk. Broome was there waiting for me: and he followed me, cursing me and using all the vile names he could think of. 'You damned —,' he said.'you've got to fight!' Then I dropped my wheelbarrow—for we were moving toward where his shotgun was leaning against the fence, and I knew that he didn't mean to let me get any mearer his gun—and almost before the legs of the barrow struck the ground Broome started on a run for his gun.

"I then pulled my revolver—it was in a hoister buttoned under my vest—and fired once toward him. I did not aim a hoister buttoned under my vest—and fired once toward him. I did not aim a Broome, nor did I intend to hit him, nor did I hit him; I meant the shot as a warning. I saw that I could not overtake and grapple with him before he reached his shotgun.

"Just as I fired that shot Broome gained the sidewalk in front of the hotel—he had gone sixty or seventy feet—and grabbed his gun. He swung it to his left side, the musule covering me. I had followed him on the run, and I grasped his shotgun near the musule and struggled for its possession. HOW HE KILLED BROOME.

"In the struggle Broome shot the right barrel of his gun, but I was inside the line of fire. I then fired my revolver into his body until my gun missed fire. I fired several shots. When my gun missed fire Broome cried. The — has shot me, but I'll get him yet! He was apparently in strong fighting shape, notwithstanding the three bullets that had entered his body. All this took plaze in a few seconds.

"Realizing that my gun was out of commission, and that it was Broome's intention to free his shotgun from my graps and get me.
